

<UIScrollViewDelegate>

<UIGestureRecognizerDelegate>

ReaderThumbsView()

```
graph BT; RTV[ReaderThumbsView()] --> UVD[<UIScrollViewDelegate>]; RTV --> UGD[<UIGestureRecognizerDelegate>];
```

The diagram illustrates the relationship between the ReaderThumbsView() class and two delegate protocols. At the bottom, a gray box labeled 'ReaderThumbsView()' has two blue arrows pointing upwards. One arrow points to a white box labeled '<UIScrollViewDelegate>' on the left, and the other points to a white box labeled '<UIGestureRecognizerDelegate>' on the right. This indicates that ReaderThumbsView() implements both delegate protocols.
